

70 Years ATIBOX 1950 – 2020.

The ATIBOX (Association Technique International du Boxer) is an ideal union for the interest protection of the German Boxer. In this sense it should promote the breeding and the achievement of this beautiful breed. According to the FCI this can happen only on the basis of country of origin — Germany determined standard.

In 1950 the initiative for a worldwide union of the boxer's clubs went out from French boxer's friends, above all from Maurice Folzer from Mulhouse. The delegations of many west-European Clubs met for the first time on the 20th of May 1950 in Strasbourg. Then Jean Batot, the central president at that time of the French club (BCF) was also determined as the 1st president by eight land representations from England, France, Belgium, the Netherlands, Italy, Switzerland and Germany. Already at this meeting was tried by practically oriented presentations to train the judges together to reach form value judgements uniform in all countries and to guarantee a trouble-free judge's exchange with it also.

Practically nothing happened during the first 10 years.

In 1960 on the 23rd/24th of October was a meeting in Strasbourg, the clubs from 27 countries, in addition, 12 from England were present. 9 delegations had arrived, 9 had apologized. Essential problem point was the missing land-covering instruction right of this union. Basically, one agreed that there must be sth. pointing the way, rules by the form value judgement around to equalize the numerous "characteristics" specific for country. A uniform education of the judge's candidates would be necessary to improve also their basics

about the whole Kynology. Leo Helbig/D became a new president. The 1st statutes were sketched and the contribution for each country was determined to 250 Swiss francs. In a Defense Intelligence Agency Leo Helbig's speech explains the divergent interpretations of the standard. The boxer as an elegant use dog with the right catch length and the fullness of the catch is in the foreground.

In 1963 was held the first big ATIBOX event in Giessen with more than 300 boxers. In the office were 14 judges, Ducret/CH, Nitzel/B, finch/A, Folzer/fa, Dr. Bosi/I, Wiley/GB, Wengsten/page and Spaa/A for the single classes were drawn lots. The first ATIBOX winners were Godewind v. Cathedral and Elektra di San Leonardo.

In 1966 in Milan, it was all about an improvement of the statutes, general breeding problems and breeding checks. Hans Nüssli/CH became a president for 2 years term.

In 1968 in Verona, Leo Helbig was chosen again the president. The today's convention basically was compiled and dismissed unanimously. As official languages of communication French and German were determined.

In 1969 an informal meeting in September in Alsace. The seminar paper of Leo Helbig emphasized particularly the boxer as a use dog, a fact which must be also demanded after the statutes. Briefly before it, an achievement competition had taken place between the BK and Czechia.

In 1971 in Karlsruhe Leo Helbig withdrew and new president became Jochen Flemming/D, again it becomes clear, how much the different regulations of the umbrella organizations in the single countries restrain the international cooperation, It was agreed to maintain the three-year exhibitions rhythm to carry out competitions and working conferences.

September 1973 the first achievement competition of the ATIBOX in Geneva. 9 boxers from Switzerland, Italy, France and Germany started to IPO.

In 1974 was the working conference in Vienna with a day-filling program, formed by scientists from Munich and Vienna, the new elections brought the editor of the BK, Horst Volkmann/D as a new president and Dr. Lesma/I as a deputy. As a symbol of the ATIBOX the globe — the boxers were introduced by Horst Volkmann.

In 1976 The 2nd ATIBOX check at trunk home/D, 17 participants from Switzerland, Austria, Italy, France and Germany.

In 1977 the working conference in Paris was held. The exhibition should take place in future yearly, the check, because of still to low resonance in 2 years cycle. An essential decision was made: From the breeding show in 1981 the ATIBOX winner must prove an education sign SchH or IPO.

1978 — breeding show, finally, in the annual rhythm in Stans in the Vierwaldstättersee.

In 1979 achievement competition with the ÖBK in Traiskirchen, 15 participants from 4 countries, in each case 2 judge's section. There was the compulsion to the IPO. With hope for a quick adjustment of both exam orders.

In 1980 the 30-year-old jubilee was held in Swabian/D, for the show and working conference

— a 4 days extensive program, several talks, e.g., 'skin diseases with the boxer and Spondyloses. On Monday all acting judges discussed placing boxers and night made slides in detail. The right to vote of every country is limited to 1 voice.

In 1981 with the breeding show in Zaventem (airport of Belgium) only boxers with working check could become ATIBOX winners. At short notice the check intended in France was called off by the host.

In 1982 was the judge conference ATIBOX in Frankfurt. The investigation results of the HD were shown. Willibald Wendel shows the development of the race since beginning of the level-according to breeding in a comprehensive slide talk. In Roskilde/DK, 160 boxers', the show is the biggest so far in the country.

In 1983, after 4-year break, again an achievement competition was in Sestola/I. 39 boxers from 5 countries lined up, default not in IPO separate in SchH. In SchH I the first places remained in the host country, in SCH III the Germans dominated. Leo Helbig passes away at the age of 83 years, with him the BK and the ATIBOX lost its biggest representative and ambassador of the breed, At working conference and breeding show in Vienna, from 13 member countries 11 are represented, Again the exam mode on IPO was determined.

In year 1984 delegates and many judges come to Rüsselsheim. Main topics is breeding check and selection. Some countries tend unambiguously in this direction, other are not ready to deviate from the present system, of all participants only Germany, Austria and Italy accept the selection together.

In 1985 the Switzerland takes over the achievement competition from France. On the 13th of April, 12 participants from 4 countries start in Neuchatel, In the same year the BK in Munich celebrates his 90-year of existence, The conference decides an essential change of the convention: The wellbeing of the boxer is of greatest importance and needs the most careful care.

In 1986 in Linz, only 10 boxers from 3 countries started. On the occasion of the general meeting in Basel almost the whole board of directors does not run for election anymore. Horst Volkmann and Dr. Lesma are appointed honor presidents, new president becomes Günter Karg/D. It was decided the dates for all events: Check at the last weekend in April, breeding show the last weekend in May and perhaps FI tournament the first weekend in November.

1987 the big breakthrough - to the European championship to Schlinz / Vorarlberg come 42 boxers from 7 countries, 19 of them started in IPO 3. Only 150 boxers visited show in Madrid/E because of the big heat and the distance. In 1988 experimental track tournament ATIBOX was held in village Mühl/Upper Bavaria with 25 boxers from 3 countries. There were 2 achievement steps, including: identifying — usual in Austria and putting away. To the check in Odense/DK came 28 boxers from 6 countries. At the beginning again the big discussion — it was led against the default to check (SchH). 1989 is the year of first European championship in Sirmione/I in the Gardasee, with 26 participants from 6 countries, with the participation for the first-time boxers from Yugoslavia and Belgium. Conference and breeding show with the 85-year jubilee of the Netherlands in Hertogenbosch. The position of

a representative is rejected for the breeding and exhibition being, because one recognizes no reasonable instruction area of the breeding Highness of the land organizations. The vice president should be in future at the same time a representative for the uniform realization of the breeding ATIBOX show. Hungary is joining as 17th counties. The first FH European championship started with the ÖBK in Schlins. There were 13 boxers in the “winner’s class” and 8 in the special competition.

In 1990 again France returns the European championship, in Lüdenscheid/D, 40 boxers from 10 countries (Belgium, Denmark, the GDR, France, Italy, Austria, Spain, Czechoslovakia, Yugoslavia, Germany). Several announcements had to be rejected. On the occasion of the breeding show in Cologne, the constituting meeting of a technical commission is held. A collection of base information from all member countries and their problem circles around. At the request of both clubs from Czechia, club of Slovakia/Bratislava and the club of Czechoslovakia/Prague are taken up as temporary members. The boxer’s friends of the GDR (5 land groups) unite with effect from the 07.01.1990 with the BK Munich. Horst Volkmann, the honour president dies in October, he was 12 years as president of the ATIBOX and longstanding editor of the BK. The FH European championship planned in Milan/Italy is called off. In December the gathering of technical commission fails, the meeting in Munich is participated merely by Austria and Germany.

In 1991 to the European championship with the group Hohenlohe-Schwäbisch-Hall/D, with 47 boxers from 8 countries. 27 started in the SchH III. Also, Communal show in Kastely Szallo/Hungaria and in Schlins/ Austria took place, FH with 31 boxers.

In 1992 mastery in “Hradec nad Morvici”/Czechia, 47 entered from 7 countries. The interpretation of the examination regulations with the tracks led almost to the éclat, unfortunately prevented by the “sportiness” and “deliberation” of dog leaders. The HV with the breeding show took place in Desenzano at the Gardasee. Two new countries have joined to the ATIBOX, both clubs of former Czechoslovakia, Peru and Thailand. The FH started in Werne/D with 24 participants.

In 1993 European championship in Heepen-Bielefeld — under best conditions, 45 boxers from 11 countries, For the 1-st time 2 level world champions (100 — 98 — 97 = 295). The HV and breeding show was in Allschwil/CH. Growing number of the member countries forced the committee for the choice of two vice presidents, Knut Brodal N and Bruno Zili/I. The FH in Hoheneich/A started with only 18 boxers from France, Germany and Austria.

In 1994 in Sochaux/T an excellent check with 43 participants from 8 countries. With the breeding show in Strasbourg, one came after 44 years again to the “cradle” of the ATIBOX. 302 boxers from 16 countries were directed by 8 judges from 6 clubs. By the division of Yugoslavia, a new club in Novi Sad/Serbia becomes a new member, the present club is led as boxer club Croatian. Temporary members: the Swedish Boxer Club S, the association of America/USA and the Russian Boxer-Club/Moscow. The FH European championship in Jülich/D saw 31 starters now in 3 tournament classes. In December Dr. Lesma dies, he was a foundation member of the ATIBOX, later honor president and a long-time president of the boxer club of Italy.

In 1995 The European championship came to Rome, with participants from 9 countries CH,

1, CS, D, DK, H, EE + B. The BK celebrates his 100-year jubilee in Garching near Munich. The HV decides that event countries may suggest in future selection of judges, however, invited only after previous approval of the "homeland" by the presidium. In the afternoon had been a festive receipt with representatives of the countries and guests from the whole "boxer's world". The Jubilee show started with 8 judges and 363 boxers. The FH in Hoheneich/A had to be cut short on Saturday due to snow and storm.

In 1996, European championship in Prag/CZ, 16 starters in SchH], 10 starters in SchH I and 22 in SchH III with 41° 0 of failure rate and the assistant's work in the protective service led to numerous protests. The Breeding show in Valladolid/E started in a fully air-conditioned hall. The FH started in Schwäbisch-Hall D with 25 participants from 5 countries.

In 1997 started the mastery in Hagen/Hattingen/D, 38 starters from 9 countries. The breeding show in Padenghe/I at the Gardasee had 642 announcements, a new record. EM of the track dogs in Stankov/CZ unfortunately, with too difficult area.

1998, the European championship near Milan/I with 50 boxers from 9 nations. The HV in Saint Vulbas near Lyons/F. The check will be in future as world championships. New members: Slovenia and South Africa. The Breeding show started with 437 boxers. First FH world champion hosted in Lüdenscheid/D Mrs. Cornell Puls/D with Kiempa v. Vagabunden.

In 1999 the world championship in France was called off by "higher" place (this kind of the check would be forbidden!) In Bonn Bad Godesberg/D, therefore, started the check with 35 boxers, first world champion became Heinz Mengisen/CH. First World exhibition for boxers in Ceska Skalice, to the north of Prague, 400 boxers, FH world championship in Castelfranco Emilie/I from 27 participants, only 14 could compete.

In 2000 started the check again in Castano Primo/I with 52 starters from 10 countries (B, DK, D, SE RI, NL, E, CZ and the USA), The show started in Espinho with postage/P. The FH world championship had been a great event in Kladruby/CZ, 23 participants of 3 clubs.

In 2001 the world championship with 18 boxers from 10 nations in Vrbove/Slovakia. HV with new elections in Saint Gallen/CH, Max Höhne retires after 15 years of service.

"Working Class-Certificate" of the T'CI which entitles to the start in the working-dog-class is accepted from 2002 also by the ATIBOX. New record with the show registration number, 453 boxers. The FH world championship started with 35 boxers from 5 countries in Franstanz/Schliens/A.

In 2002 the world championship in Benicarlo/E took place, 48 dog leaders from 10 nations, The breeding show in Wroclaw/PL takes a new record with 520 announcements. In June Günter Karg withdraws after more than 16 office years, the first vice president Knut Brodal/N automatically moves up as President. The [IH world championship started in Jülich/D with 35 participants from 6 countries. On the 11th of November Max Höhne, long time president of the ÖBR and first dog's representative of the ATIBOX dies after long illness.

In 2003 the world championship again in Vrbove, with 41 dog leaders from 13 countries. The World winner's show started in Maribor/SLO, 498 announcements. FH world championship in Kladruby/CZ, 33 boxers from 8 countries.

In 2004 world championship in Stribo/CZ, 39 dog leaders, for the first time 3 from the USA and 1 team from Japan. The HV in Deurne/NL started with representatives from 18 countries, besides Bulgaria. The whole Presidium was new elected, Knut Brodal was re-elected as President. Rumors and wrong information complicate the expiry of the breeding show to the 100-year jubilee of the BK/NL. The FH world championship started in Berlin, with 34 announcements from 7 countries.

In 2005, ATIBOX IPO world championship in Augsburg/D with 36 boxers from 12 countries. The World winner's show started in Zagreb. The FH world championship was in Louny/CZ with 39 boxers from 7 countries.

In 2006. 19th of February in Kamen D, FCI Hans Müller VDH Uwe Fischer and ATIBOX Knut Brodal closes an agreement of Cooperation with the ATIBOX after extensive preparations by the VDH, the umbrella organization in Germany, on the 19th of February. It contains 5 points: Legal bases, common objectives, admission of new members, effectiveness — duration and resolution. The ATIBOX IPO world championship had been in Dzialdowo/PL, with 18 boxers from 8 countries. The show in Portugal had been on the EXPOarea with 530 boxers. The FH world championship was in Brackenheim/D with 38 teams from 8 countries.

In 2007 the world championship had been in Ronco all 'Adige/I with 35 teams from 10 countries. HV and breeding show in Novi Sad/Serbia. 6 new countries whose representatives are not even present have transferred their votes other members; new president becomes Milos Lucic from Serbia. Knut Brodal was elected as Honorary President. It comes to the éclat, because the meeting chooses a new secretary general, against the will or the approval of his club, The representatives of Germany leave the hall, The FH world championship was in Faaborg/DK with 39 boxers from 4 countries.

In April 2008, 13 nations take part in the world championship ATIBOX IPO in Wroclaw/PL, In May the breeding show ATIBOX takes place in Piestany/Slo. The world championship FH takes place in Limmen/CH with 8 nations in November.

In 2009 on the 25th/26th of April Slovakia was hosting the world championship IPO with 31 participants in Krajne, In Santa Perpetua De Mogoda/E the breeding show ATIBOX takes place. The world championship FH is organized in Vranov nad Toplou/Slovakia.

2010 this year is the ATIBOX 60 anniversary, At the middle of April Hungary the world championship ATIBOX IPO is carried out in Orosházán. All together 34 teams in the start, of it only 24 in the world champion's class IPO 3. On the weekend 28th/30th of May the HV and exhibition ATIBOX take place in Wroclaw/PL. Milos A. Lucic, Iwona Magdziarska and Robert Fagos are re-elected in her offices.

New members in the presidium are chosen Norbert Zawatzki — first vice president, Andreja Cucnik — secretary general, Knut Persen — cashier, Sergey Vanzah — assessor, Winfried Bonn — assessor, Reidun Gretz — controller and Maritha Ostlund Holmsten — controller. Günter Karg is appointed the Honorary President. More than 800 boxers were announced for ATIBOX exhibition in the Olympic Stadium. On the festival evening the 60-years existence of the ATIBOX was celebrated. From the 27th to the 29th of August in Kuortane/Fin the world championship ATIBOX FH took place. Unfortunately, only 4 countries took part in this event! 60 years of ATIBOX. With a view to ours "founding fathers" from 1950, Maurice Folcer

and Jean Batôt from France, Leo Helbig of the BK, Hans Spaa from Austria and Dr. Lesma from Italy are to be particularly emphasised. Those are only parts of our history, but we can recognize how difficult the way was till this day, how much in idealism was raised by all called and countless not mentioned here. Some have surrendered resignedly; some might not experience the result of their images and wishes any more. We want to thank You all, too!

The aim of a uniform breeding regulation still stands a long way off. "Uniform" directing is already almost reached up too few exceptions. Finally, after many approaches the boxer has asserted himself in almost all countries also as a working dog,

Günter Karg Atibox Honorary President

ATIBOX General Assembly, in Italy.

ATIBOX General Assembly was held on Friday evening before the ATIBOX World Boxer Show 2011, and one of the mayor topics was the discussion on the future status of ATIBOX with the idea to register ATIBOX in one of the European countries. ATIBOX committee previously created a task-force group, that includes Mr. Günter Karg, Mr. Knut Brodal and Mr. Norbert Zawatski to work on the ATIBOX status issues and to propose the best of all potential solutions.

Due to the emerging cropping and docking bans, discussion in regard to the ear cropping and tail docking ban in boxer was raised. ATIBOX decided to gather the opinion from the member countries first, before making final decision.

In order to decentralize the authority, and to improve the technical capacities, ATIBOX initiates the idea of creating the technical committees, starting with the ATIBOX committee for working dogs. Mr. Udo Herrmann has been appointed to chair ATIBOX committee for working dogs; Mr. Robert Fagos, ATIBOX chairman for utility and Mr. Norbert Zawatzki, ATIBOX 1st vice-president will provide the support from the ATIBOX presidium to initiate the start-up of the committee.

2012

ATIBOX General Assembly, in Italy.

ATIBOX presidium appointed Udo Herrmann, as a chair, and Bernhard Knopek, Karl Klingenbrunner, Ruggero Zorzan and Ladislav Kuzma, as ATIBOX working committee members, together with Robert Fagos, ATIBOX chairman for utility and Norbert Zawatzki, ATIBOX 1st vice-president. Guidelines/specifications on ATIBOX IPO and FH were produced and published on ATIBOX webpage. ATIBOX Editorial and Web Committee has been initiated, chaired by Mr. Jozef Suster; Dr. Iwona Magdziarska as 2nd vice-president will help to initiate this committee.

Additional ATIBOX technical committees, such as ATIBOX health committee, breeding committee and judges committee to be formed in a due time. Mr. Joao Vasco Pocas nominated for the chair of judges committee, preparing the Show Judges Regulation. ATIBOX World Boxer Shows Regulations draft was presented by Dr. Iwona Magdziarska to the ATIBOX presidium and accepted in general. Final version is yet to be accepted and presented to the General Assembly.

ATIBOX assembly was held on October 19, 2012 in Rivolta D'Adda, Italy.

Mr. Winfried Bonn and Mr. Norbert Zawatzki took the decisive part within the taskforce group on the Convention changes survey. Regarding the ATIBOX status on the basis of general EU legislation the task force group, Mr. Bonn and Mr. Zawatzki have prepared the status survey as one document on possibilities. As they reported in the status survey, it would be very difficult to change the legal status of ATIBOX at the moment, due to the legal regulation within EU countries, on what the Assembly has been informed and ascertained. One of the results of ATIBOX relations with the FCI was announced by Mr. Robert Fagos - ATIBOX IPO world champion is allowed to enter directly into the competition of FCI World Championship for Utility Dogs, without any other prior qualifications. Since the number of participants is much larger at ATIBOX World Boxer Show in comparison to ATIBOX IPO and ATIBOX FH World Championship, in order to support the important utility boxer championships, General Assembly unanimously decided to accept the proposal of ATIBOX presidium to introduce the amount of €2 from every boxer entry at every ATIBOX World Boxer Show (that must not exceed €60 per boxer).

Following the situation on the cropping and docking matter, ATIBOX General Assembly has unanimously accepted the initiative that "All cropped boxers, born after January 1, 2013, are not allowed to take part at the ATIBOX events anymore." In regard to the ATIBOX utility events, such as IPO and FH World Boxer Championship, an editorial supplement: "In a case of proven and verified medical indication, a docked boxer born after January 1, 2013, may

participate in ATIBOX utility events, e.g. ATIBOX IPO and FH World Boxer Championship." has been proposed on site and accepted unanimously as well. Boxer Club of Greece was accepted as a new ATIBOX member.

After the end of ATIBOX Assembly, the first ATIBOX Round Table on Health Issues has been held, opening the numerous questions and discussions, where the necessity of creating ATIBOX Committee for Health and Character issues has been pointed out.

2013

ATIBOX Election General Assembly, in Hungary.

ATIBOX Election General Assembly was held on May 19, 2013, where the election of the new ATIBOX presidium took place.

Prof. Dr. Milos Lucic (Serbia) was re-elected as ATIBOX President; Dr. Iwona Magdziarska (Poland) was elected as 1st Vice-President and Mr. Ruggero Zorzan (Italy) as 2nd VicePresident. Andrea Cucnik (Slovenia) was re-elected for General Secretary; Mr. Bernhard Knopek (Germany) was elected as chairman for utility, and Knut Persen (Norway) was reelected as treasurer. Nicholas Limon (Belgium) and Oliver Erat (Austria) were appointed to the ATIBOX presidium as assessors with voting rights by General Assembly.

In an obvious need to change the ATIBOX convention, proposal to form Convention committee was unanimously accepted by General Assembly. Dr. Anna Bogucka (Poland) and Mrs. Ute Fueglistner (South Africa) were unanimously nominated on-site to initiate the committee, and Mrs. Ioana Milea (Romania) has been appointed later as a committee member.

Boxer Club of Indonesia and Boxer Club of Peru were accepted as ATIBOX members by General Assembly.

The same afternoon, on May 17, 2013, ATIBOX Round Table dedicated to the health issues was held in Lajosmizse, Hungary, moderated by Mrs. Line Orlund and Dr. vet. med. Cecilie Strømstad, both from Norway, who presented the results of the survey in Norway on boxer diseases. The interesting results of a survey are indicating that the actual stand on diseases of boxers are to be seriously revisited, which opened a very fruitful discussion and once again pointed out the immediate necessity of creating the ATIBOX Committee for Health and Character Issues. Mrs. Line Orlund (Norway), Dr. Cecilie Stromstad (Norway), and Dr. Bruce Cattanaach (United Kingdom) were appointed as the founding ATIBOX Committee for Health and Character Issues members already on May 19, 2013.

2014

ATIBOX General Assembly, in Polen.

A regular annual ATIBOX General Assembly took place on Friday, May 23, 2014, in Wroclaw, Poland. Prof. Lucic presented the mission, vision and strategy of ATIBOX, with the final goal to improve the morphology, character and health of the German boxer breed to the ATIBOX Assembly.

The vision of ATIBOX is to improve the boxer breed, to create a new vision of boxer, and to widely open a new perspective in producing the beautiful, healthy and happy boxer all around the world. The concept of unifying all health and character tests in the ATIBOX member countries by obtaining the agreement within ATIBOX by member countries and apply it, of equalizing the breeding and selection system in the ATIBOX member countries

through foundation of ATIBOX Breeding Committee, in order to improve the global breeding guidelines of the German boxer breed, and to work on unification of the breeding concepts around all ATIBOX member countries, in a close co-operation with breeding committee of BK Sitz München, as already discussed at the Judges round table in Wroclaw 2010.

The founding members were to be proposed by member countries. Harmonizing the show judging in the ATIBOX member countries will be made possible by establishing the ATIBOX Academy for continuous education of judges and creating the utmost compatibility in all of the ATIBOX member countries by dialogue, respect, democracy and tolerance within ATIBOX. At the same time, ATIBOX will start the initiative all over the world to promote the German boxer by appointing official envoys - ATIBOX ambassadors - ready to act on the promotion. First ATIBOX ambassadors were nominated in South America: Mr. Carlos Ortega, Peru; Dr. Ricardo D. Ravaglia, Argentina; Mr. Alberto Gonzales, Peru; Augusto Guto Moraes, Brasil; Mr. Jorge Romulo, Peru.

ATIBOX judges committee has a task to improve the ATIBOX World Boxer Show regulations and to start to work to establish ATIBOX Academy for the judges, that should provide update on knowledge and continuous education of ATIBOX judges, in accordance with the ATIBOX strategy.

All presented proposals, including the ATIBOX mission, vision and strategy were accepted by ATIBOX Assembly unanimously. Decision of ATIBOX presidium to introduce and to establish a special ATIBOX award for “the life dedicated to boxer”, which should be awarded to the persons who contributed outstandingly to the improvement of boxer breed has been welcomed by ATIBOX Assembly unanimously. The list of first four nominees for ATIBOX award Mrs. Karin Rezewski, Germany; Daniel Lanoise, Belgium; Josef Waldhammer, Austria (posthumously); and Alessandro Tannoni, Italy was accepted by ATIBOX Assembly unanimously.

2015

ATIBOX General Assembly, in Germany.

ATIBOX Regular General Assembly was held on May 29, 2015, in Gelsenkirchen, Germany, where the necessity to make committees operational was stressed.

Mrs. Ioana Milea (Romania) was appointed by ATIBOX presidium as a new chair of ATIBOX Convention Committee since Dr. Anna Bogucka decided to leave the duty. It would be important since for a several years, ATIBOX is trying to register in the most appropriate way, and this question remained open, even after the conclusions of the workgroup dedicated to solving this issue.

For a first time, a non-formal pilot project has been tested, and the agility competition has been very successfully organized at the same occasion under the leadership of Mr. Nicolas Limon.

Boxer Society of Ireland was accepted as a new ATIBOX member.

ATIBOX World Boxer Show held on May 30-31, 2015, in Gelsenkirchen, Germany with the number of 728 entries from 28 countries.

JUDGES; Maritha Östlund-Holmsten (SE), Franco Marzo (IT), Anna Bogucka (PL), Sabina Heric (SL), Walter Fiechter (DE), Vesna Curcic (RS), Ginette Hufschmid (CH), Inge Gerwin(DE).

The Best Boxer of the ATIBOX World Show; DOREMI VAN DE KROEZE DANNE.

2019

ATIBOX Election General Assembly, in Romania.

ATIBOX General Assembly was held a day before the ATIBOX World Boxer Show on May 25-26, 2019, in Oradea, Romania, where the election of the new ATIBOX presidium took place. Prof.Dr. Milos Lucic (Serbia) and Mr Bernhard Knopek (Germany), as the nominated candidates to elected as ATIBOX President. Prof. Dr. Milos Lucic elected by one vote majority to ATIBOX president.

Prof.Dr. Milos Lucic offered Mr Knopek to cooperate, but Mr Knopek refused and left the meeting together with several countries (Germany, Denmark, Romania, Switzerland, Latvia, Austria, Italy, France). Germany and Austria gave resignation letter and stated their countries will leave ATIBOX at the end of the year.

Mr. Nicholas Limon (Belgium) was elected as 1st Vice-President and Dr. Iwona Magdziarska (Poland) as 2nd Vice-President. Mrs. Beatrice Stocchi (Italy) was elected as General Secretary. Mr. Henry Beuks was elected as treasurer. Since all candidates have withdrawn their candidatures, chairman for utility was not elected on site. Juan Carlos Garcia (Spain) was elected as responsible for Working. Ing. Anders Härnman (Sweden) and Prof. Rafae Hernandez (Bosnia Herzegovina) was both elected as assessor with voting rights.

Approval of Statues of legalized ATIBOX, registered in the Netherlands and additional Internal Regulation of legalized ATIBOX presented. The assembly decided that the ATIBOX Committee prepare both documents and present them for the Assembly to vote next year.

The Assembly decided the main language in ATIBOX is English.

The Assembly decided the proposal to raise the contribution per dog for show organizing countries of ATIBOX World Show, from 2 to 3 euro, to be used for the WM IGP and FH. Also, the proposal raising the support of 1000 euro per WM IGP or FH for the organizing country to 2000 euro was approved with majority.

Mrs. Ana Aksenova held an appeal where she complained about the countries who left the meeting, not respecting the result of the democratic voting. She claimed everything they wanted was "all power".

2020

ATIBOX online General Assembly on Saturday, December 12, 2020.

Prof. Dr. Milos Lucic stated he was glad to see all boxer friends once again after long time, even if only by virtual communication.

Prof. Dr. Milos Lucic gave an overview of the corona year. He discussed that due to the pandemic no shows or trials had taken place. Activities of the committee had been conducted virtually and that a number of initiatives had been implemented, amongst which were the strategy plan, new judges' regulations and a review of the show regulations and working trial regulations is taking place. Committees have been or are being formed to review the regulations. Prof. Dr. Milos Lucic stated that it was considered in this format it would be difficult to present the new statutes so these will be presented when it is possible to have a normal general meeting.

Mr. Anders Härnman presented the documents of ATIBOX strategy and action plan. ATIBOX, as the largest boxer breed organization in the world is engaging in developing and guiding our boxer to meet the future challenges.

In order to act upon these future demands effectively, ATIBOX Presidium decided to develop a '*Strategy and Action Plan*', which has been devised with the aim to guide and improve our activities to have the necessary impact.

So, on the initiative of our ATIBOX President Prof. Dr. Milos Lucic, after the General Assembly in Romania it was decided to set up a working group to prepare the document "Strategy and action plan" to direct ATIBOX activities in the period leading up to the General Assembly in Spain 2022.

The working group has consisted of persons in the presidium and persons outside ATIBOX presidium who all have good knowledge of ATIBOX's activities. Also, our member countries have been consulted on the '*Strategy and Action Plan*'.

With a wish to make these ideas of ATIBOX fully transparent, we introduced the ATIBOX *'Strategy and Action Plan'* to all of boxer enthusiasts around the world, in order to help realize the future aims of the ATIBOX activities. Our watchwords must be by dialogue, respect, democracy, and tolerance within ATIBOX!

ATIBOX vision is to improve the BOXER breed and to create a new vision of the BOXER, and to widely open a new perspective in producing the beautiful, healthy, and happy Boxer all around the world.

QR-code ATIBOX Strategy and Action Plan, period 2020 - 2022.

https://www.atibox.dog/wp-content/uploads/dlm_uploads/2020/06/ATIBOX-Strategy-ActionPlan.pdf

Mr Nigel Rallings presented the new judge regulation according to the ATIBOX strategy and action plan.

In order to regulate in a more democratic way the possibility of being approved for inclusion on the list of judges who are qualified and approved to judge at the ATIBOX World Show and in accordance with the strategy document a new protocol has been drawn up by the judges committee. This document is important for countering a “political judges list”.

It was decided in 2020 and set out in the ATIBOX strategy document that a new judge's criteria would be implemented to judge at the ATIBOX World Show. The document sets out the criteria, procedures of how inclusion will be achieved and the expectations of the judges who qualify for inclusion on the ATIBOX World Show judges list. Responsible for this important document have been Mr Anders Härnman, Mr Nigel Rallings and Mr Knut Brodal.

Under this QR - code you can find all documents regarding SHOW Directives.

<https://www.atibox.dog/expositions/show-directives/>

Mr Henry Beuks showed and explained 2019 financial report, which was unanimously accepted. The membership fee for the year 2000 has been waived due to the fact that member clubs' incomes have been severely affected by the pandemic. Any membership fees already paid will be carried over to 2021. Previously each committee member was paid an expenses fee, the current committee since their election have worked 'pro bono' and will continue to do so previously paid committee fees can be used for the good of ATIBOX.

Mr. Robert Fagos the only nominated candidate for chairman for Working Matters. Robert Fagos was unanimously elected as Chairman for working matters.
