

To the ATIBOX member countries presidents and representatives and to all those who carry the boxer within the heart

Ladies and Gentlemen,

Dear boxer friends,

In the 69th year of ATIBOX, at the ATIBOX General Assembly, held on May 24, 2019 in Oradea, Romania, new ATIBOX presidium have been elected.

Understanding ATIBOX as the open, democratic and friendly association, as a newly elected ATIBOX presidium we would like to share with you our firm dedication to do our best to serve the interest of our beloved breed - German Boxer.

Respecting the mission and vision of ATIBOX, we believe that presidium shall help in coordination of the ATIBOX activities, instead of being a executive organ of ATIBOX. Therefore we intent decentralize ATIBOX processes by increasing the activities of the existing ATIBOX committees, but also by creating the new ones, including the ATIBOX Breeding Committee and other boards that would gather the experts from different countries to discuss all important issues related to boxer. We will promote and distribute scientific knowledge, already gathered by ATIBOX Health Committee in order to make our boxer a healthier and better breed. We shall face all facts that may improve genetic resources of boxer. We intent to improve the communication between the member countries, and make ATIBOX more transparent and easier to reach to all boxer breeders, owners and all of those who just keep boxer in their hearts.

Having no doubts that only boxer matters to all of us, we invite you to join us on this demanding journey, to come along and work together with all of us in the best interest of our beloved boxer.

Welcome!

Yours,

Milos A. Lucic, president

Nicolas Limon, 1. Vice-president

Iwona Magdziarska, 2. Vice-president

Beatrice Stocchi, general secretary

Henry Beuks, treasurer

Juan Carlos Garcia, chairman for working boxers

Anders Härnman, assessor

Rafa Hernandez, assessor
